

Baltimore Humane Society Group Volunteer Questionnaire

Thank you so much for being interested in wanting to volunteer at our shelter. We are a private, non-profit, no kill shelter and work with a small staff, so additional help is greatly appreciated.

Our group volunteer opportunities typically include grounds keeping, landscaping, event help, various cleaning tasks, etc. These larger scale projects are typically things we as staff just cannot get to on a daily basis, and rely on our group volunteers to help us complete. One thing we like to mention right away is that to officially work hands on with our animals, there is training that is involved that all our current volunteers must complete before any socializing can take place. If you would like to become a consistent volunteer and be able to work with our animals, please visit bmorehumane.org and fill out a volunteer application.

Below are a few questions for you to answer in order for us to get a better idea of how we can make your volunteer experience beneficial and enjoyable. Since we appreciate your time and dedication immensely, we want to make sure your time spent with us is memorable.

1. What is your group name? (company/business/who are you representing)
2. Who is the best contact person and what is their email & phone number?
3. What are you looking to get out of your experience here at BHS?
4. What days/times work best for you and your group?
5. How long would your group be able to volunteer?
6. How many people are in your group?
7. What is the age range of your group?
8. Is your group okay with working outdoors including but not limited to grounds keeping, landscaping, and property maintenance?

9. Would your group be willing to make a monetary donation?

10.If you cannot commit to coming to our property, that's okay! Would you be able to create a donation drive or special event on our behalf?

Depending on your availability, either Danielle or Lorna, our volunteer coordinators will be in contact with you as soon as possible to get things started. We look forward to working with you in the near future!
